

5.5. Available Versions

Type code field:	Example:	MDD	041	B	N	100	N	2	G	050	G	B	0
1. Name Motor for digital drive controllers	MDD												
2. Motor size	041												
3. Motor length	A, B, C												
4. Housing design: Standard (for natural convection)	N												
5. Nominal speed 10000 min ⁻¹	100												
6. Balance class Standard (N per DIN VDE 0530 section 14, 2/93 edition)	N												
7. Side B shaft end Standard (without side B shaft end)	2												
8. Motor feedback Resolver feedback Resolver feedback with integrated impulse absolute encoder	G K												
9. Centering diameter ø050 mm	050												
10. Output shaft													
11. Power connection Connector to side A Connector to side B	A B												
12. Blocking brake without blocking brake with 1.2 Nm blocking brake	0 1
